ALL NEW GAMING SPIRITS

COUGAR 600K is a premium mechanical gaming keyboard aimed at professional level gamers.

The design of the Cougar 700K was inspired by stealth warship technology, and it is based on carefully selected geometrical shapes: mechanical key modules are mounted on an exposed aluminum structure with premium anodized surface treatments, and a plastic frame wraps its ends to create a stylish, sturdy and durable device. This, together with the wrist support points, makes possible a faster, more precise and comfortable experience that allows gamers to bring their performance to the limit. .

An extra FPS palm rest with magnetic attachment on the left palm rest area provides great ergonomic support for control of the WASD keys.

600K

Features

CHERRY MX MECHANICAL SWITCHES

Mechanical keys deliver gaming-grade responsiveness and distinctive tactile feedback.

N-KEY ROLLOVER

Unlimited simultaneous key presses.

32-BIT ARM PROCESSOR

Superior computing speed, instant response and smooth operation.
